

To Whom it May Concern

RE: Reference Mila Kucharova

Mila has worked for me since 2006 and has filled a number roles has at all times been a highly regarded member of any crew that he has been part of.

Mila is a very enthusiastic person who has a strong can do attitude. She has worked with her partner on most of these occasions and together they make a formidable team.

Mila has most often filled the role of deck crew or "crew mother". However there is much more to Mila than just this, she has proved on a number of occasions to have a very good grasp of the mechanical skills required to maintain large yachts.

Her background in the arts, particularly painting & photography and as a coach and mentor to a number of Czech singers has ensured that she has very strong interpersonal skills that ensure all other bond strongly with her.

Mila is also an accomplished sailor, having over 12,500 ocean miles to her name.

Mila has very hands on approach to her work and will never shirk some of the more unpleasant jobs that are required.

Mila will always be someone that I will find space for in any operation that I run be it land or sea based.

I wish Mila all success in her future and have no hesitation in recommending her for any position that she applies for as I know that she will benefit any future employer.

Kind Regards
