

18th January 2006.

To Whom it may concern,

Miluse Kucharova worked as a F.H.I.N.Z. volunteer worker for one month. We have a Y.H.A. Associate hostel and a small horse-trekking business. She assisted with all aspects of preparing the horses for trekking and cleaning and unsaddling afterwards.

Miluse assisted me daily with the general cleaning, bed making, laundry and dinner preparations in the hostel.

We have found her to be a very conscientious and thorough person, carrying out every task quickly & neatly, often doing more than what was expected of her. She was punctual and interacted well with the guests.

Playing with and caring for young children is another of her strong points. She went to great effort making exciting games up for our grandsons who live on this farm.

Miluse takes a lively interest in the environment and enjoys tramping and all outdoor activity. She was a great help to me in my big vege garden.

In general we found her to be a very pleasant and capable worker in every aspect.

Feel free to phone me if you require more information.

Yours sincerely,

OKOPAKO
THE WILDERNESS FARM
